She was of a long lived family, her grandfather living to the age of 101 and her grandmother 101, and the family came here in an early day, before the civil war from Tennessee, her father, E. Parker having built the first house in Chattanooga, Tenn. Her husband, Ben Ellis is well remembered by a number of the old families of the country, but has been dead a number of years. She had a number of reminiscences of the early days, among them being times when the Indians of Tennessee were none too peaceful. WHAT THE KIDNEYS DO  
Their Unceasing Work Keeps Us  
Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—which vary widely but may include pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right the danger is overcome. Doan's Kidney Pills have proven an effective kidney medicine.

Mrs. J. L. Agan, 611 Fifth street, Monett, says: "I have had attacks of backache and my back would become weak. I knew this was caused from my kidneys and they annoyed me a great deal by their irregular action. One box or so of Doan's Kidney Pills which I got at McKee's Drug Store have always rid me of such attacks and regulated my kidneys to a healthy condition."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Agan had. Foster Milburn Co., Mfrs., Buffalo, N. Y.

CONCORDIA MAN LIKES  
THE OZARKS

W. F. Walkenhorst, of Concordia, Mo., who recently visited Mrs. John Hess at Monett, wrote an article describing his trip overland for the Concordia of his town. We copy a part of his very interesting account in the Times:

Mr. and Mrs. J. H. Nolte of Alma, Grant Walkenhorst and the writer left Concordia on August 14, at 10:30, on a trip to Monett, Mo., Ideal weather, a well behaved Ford and a careful driver contributed much to the pleasures of the enjoyable trip. Monett is about 170 miles south of Concordia, but owing to the contour of the land and the rocks, we drove more than 460 miles in going and coming. We arrived at the home of Mrs. John Hess in Monett August 16 at 9:00 p. m. We had been there but a short time when we were surprised to see Mrs. Kuhlman, who stepped into the room. She had come by train and took us by surprise.

One reason to take this trip was to see the country over which I had scouted many times during the Civil War, all the way between Kansas City and Jefferson City. I had the satisfaction of now and then noticing an old trail that looked familiar, but the change was so great that I may have been mistaken. Anyway, memories would become vivid and I could see myself again a boy of twenty—dressed in blue and carrying a soldier's full equipment, mounted on a splendid dapple gray horse, riding all day with my company and then lay down without supper—a stone for a pillow—dreaming and thinking of home, praying "now I lay me down to sleep;" and, somehow, I felt that I was not alone.

We remained three nights and two days in Monett and certainly enjoyed our stay there. \*\*\*\*

"Monett is a railroad town of 5000 inhabitants all white. In this respect the town is like Concordia. It has beautiful homes, lawns and streets and cemetery. The strike is on there. Non-union men, guarded, are working in the shops and everything seemed quiet, as far as I could notice. I think this would be a nice place to live in. The town is well supplied with healthy and clean babies. Mrs. John Hess, formerly of Concordia, and her son Arthur, and her two daughters, Mrs. Leo Harbeck and Mrs. Galloway live in Monett and one daughter Mrs. Conley lives near on a farm. \*\*\*\*

"A gravel road is being built from Springfield to Kansas City. We passed perhaps a dozen gangs working on gravel roads. Each county builds her roads and the State pays something towards it. Gravel roads are not bad to drive on, rain does not effect them, neither are they dusty or muddy.

"I was surprised to find great areas of land, some perhaps 50 miles long and wide, in South Missouri. One of these is west of Springfield, and another south of Sedalia. There are nice homes there. The soil is greyish and somewhat sandy and does not produce as good crops as our black loam here. I was told that 35 and 40 bushels of corn is considered a good crop, while we raise 45 and 50. The land excels ours in fruit growing, and I believe that this will be a great fruit country.

"The people all over this country seem to be happy and contented and are very friendly to tourists.

"The native lumber consists mostly of oaks. Springfield has whole blocks lined with beautiful sugar maple trees. Surely very attractive, Monett has a kind of a poplar shade tree that does not grow here. They are ornamental and make good shade at the same time.

"The hazel splitter hog, the long horned cow and the four-pound fleece sheep have disappeared and we find Poland China hogs, Galloway, Jersey and Holstein cattle etc., in their places. \*\*\*\*

"I think of the Ozarks as a most delightful and romantic country where nature is inviting us to see the great wonders created for us."

## SHOWER FOR BRIDE

Sunset View Farm, the Country home of Wm. Thornhill, was the scene of a very pleasant affair when the young woman's club met there to give a shower to Mrs. Viga Hall. Miss Thornhill had thought up a very clever idea of auctioning off all the shawls, to be paid for with beans in a bag, which had been given to the guests before the sale. Miss Mae Williams acted as auctioneer, and all admitted that she would put Col's. Hudson and Lane to shame, as all the gifts brought over \$100.00. Miss Ruth Ambrose being the highest bidder of all, always bidding around \$150.00, when everyone knew she only had \$75.00. The recent bride was well pleased with her many presents, and the hostess finished a perfect evening by serving a bountiful supply of ice cream and cake.—Purdy Review, August 24.

M. P. EMPLOYEES AT
